PROGRAM

Brian Baum introduced the program. **Dr. Peter Hartlove**, our speaker, has been serving the foot and ankle care needs of the Longmont community and surrounding areas since 1981. Over the 24 years of his practice, he has cared for men, women and children of all ages and all types of foot and ankle problems.

However, his profession was not the topic for the day. Dr. Hartlove has a hobby, which is in the opinion of this editor, probably his real passion. He takes nature pictures which are truly amazing, travelling the world to remote regions to take them.

He shared many of his photographs with us, which was the program. On display was the camera with a huge telephoto lens, which he uses to get up close to his subject.
